

# **COVID-19 Preparedness and Response Plan**

**The Vehicle Services Group, LLC, established in April 2009 (COVID-19) preparedness plan involves consistent educational teaching moments attempting to reduce high anxiety fears away from corporate, municipal and seriously concerned residential consumers by introducing **(Ahead of the Curve)** “Infection Prevention” electrostatic disinfection cleaning services.**

**Preparedness plan remains continuous lifetime consumer learning curve above traditional cleaning mechanisms introducing disinfecting coating technology services consisting of identifying hard & soft surface bacteria measurement contamination levels. Currently implemented, public space environmental sanitizing (B2B) system minimizing the reoccurrence of (COVID-19) related infection levels using clean-energy steam technology.**

**Pro-active risk assessment strategies daily implemented using swabs bacteria collection methods within (ATP) digital testing meter to determine non-visible germ pathogen levels within corporate vehicle fleets, office buildings, athletic facilities, churches, schools and restaurants.**

**Our ambition as (Eco-entrepreneurs) remains environmental responsibility embracing federally supported **“Green”** business initiatives supporting technically proven non-toxic non-chemical, odor eliminating scientific advancement in the areas of competitively removing (Airborne) chemicals, germs and bacteria recommending (B2C) sanitized, disinfecting steam cleaning removal services.**

**Professional business relationships commenced, established currently with **“Google”** Ann Arbor, Detroit, Novi office locations. GSI Networks & Security, James H. Cole Funeral Home and nationally top rated (Pro) home services provider (Angie’s List)**
